

The intake (intakegesprek)

The intake is a first conversation with your trajectregisseur to get introduced and together you will explore new job opportunities.

During this intake you can expect to talk about the following:

- We would like to know who you are. Where were you born? What do you enjoy doing? What are you good at?
- We are curious if you already have work experience and what you find important in a job. We would like to know what kind of work you would like to do.
- We will explain what IBN does and what we can offer you. Feel free to ask all your questions.

The answers to these questions are necessary to map out your route to the most suitable workplace. Your workplace can be at one of IBN's companies or at another company outside of IBN. The trajectregisseur will guide and support you in this process.
